

Plastic Masterbatch

Royale Black – P1202

Product profile

P1202 is commonly used for the application where good jetness and gloss is required.

P1202 is a cost-efficient black for colouration and covering power in a variety of mature plastic applications, such as thinner multilayer films, engineering plastics, pipes & drip laterals where particle size of <25 nm is mandatory.

P1202 is a pelleted carbon black and filled masterbatch that has good UV resistance, good colour strength and good covering power. The dispersibility of P1202 depends on the equipment used and the formulation.

Typical Value

NSA m ² /g	STSA m ² /g	OAN CC/100g	Tint Strength % ITRB	Sieve Residue 325M, PPM	Heat Loss (as shipped) %
115	109	111	115	50	0.6

Application Field

Typical Application	Recommended Dosage
Footwear	8-15%

Recommended dosage can vary depending upon end use & modification of other ingredients.
Packaging - 25 kg paper bag or 500/1000 kg bulk bag.
