

Royale Black – P8242

Product profile

P8242 exhibits good processability and offers a good balance between cost and performance for applications requiring medium to high opacity and weatherability. It can be used for thicker multilayer films, pipes and drip laterals.

P8242 is a general purpose pigment black suitable for web offset lithographic printing inks and a broad field of liquid ink applications. It provides medium intensity while maintaining good dispersibility in printing ink.

This product is commonly used as all - purpose pigment in building product applications, as textiles colorants and refractory applications.

The dispersibility of P8242 depends on the equipment used and formulation.

Typical Value

NSA m ² /g	STSA m ² /g	OAN CC/100g	Tint Strength % ITRB	Sieve Residue 325M, PPM	Heat Loss (as shipped) %
76	73	102	102	90	0.6

Recommended dosage can vary depending upon end use & modification of other ingredients.
Packaging - 25 kg paper bag or 500/1000 kg bulk bag.

Application Field

Typical Application	Recommended Dosage
Plastic Masterbatches	Upto 45%
As a dye in synthetic fibre	30-35%
